

Centennial Montessori School

Elementary Program

We welcome all parents to explore the Montessori environment for six to twelve year olds!

Elementary Events

- October, Nov., and January: Please contact us to arrange a tour and observation to learn more about the program.
- Dec. 5, 7:30 pm and Jan. 11, 3pm: Curriculum Night – please join us for an introduction to the Montessori Elementary Program and the second plane of development
- January 24th: Application Deadline
- March 15th: Decision letters are sent out.
- March 22nd: Enrollment forms are due back.

Explore the Cosmic Education for your Elementary Child

The Cosmic Curriculum is Dr. Montessori’s approach for the education and support of the Elementary child. By providing a framework to understand the universe, the child begins to understand the interconnectedness of life and the interrelations of his environment. By forgoing artificial divisions between subjects, the Cosmic Curriculum helps the child to channel his explorations into remarkable discoveries that satisfy his/her thirst for answers while at the same time refining basic skills and helping to locate this now confident child in the time and space of human civilization.

At Centennial, the child-centered academic discoveries of interconnection are extended into the greater world through nature outings as well as child-initiated trips to the vast array of cultural treasures provided by the Greater Bay Area.

*Please RSVP to info@centennialmontessori.org

More questions?

We are very excited to be able to offer Montessori families an option for continuing their child’s education past the Children’s House into the Cosmic Curriculum of the Elementary. Please do not hesitate to contact us for more information.

Please call Kristi or Sara at 650-340-1230 or email at info@centennialmontessori.org
